

~Horse Description~

Every team packet needs to have two copies of the Horse Description sheet. This sheet needs to be organized and provide as much information as possible. Be honest and as descriptive as possible with each horse.

~Tips~

1. Be as descriptive as possible! Having a description that says "Great Draw!" is not very helpful. Sure it may be a great draw, but what does that *really* mean? A horse that is considered a great draw for one rider, may be a very tough ride for another!
2. Keep a "Tack change" sheet by the steward/ingate. Crop/Spur descriptions may change during the day. It is ultimately the coaches responsibility to make sure that all correct aids are used. Be sure to announce all tack changes as well.
3. Each horse should wear a name tag so that they are easily recognized.
